

55/384 sequence-specific DNA binding

46/320 regulatory region nucleic acid binding

4/39 repressing transcription factor binding

36/290 chromatin binding

37/295 ATPase

7/54 DNA-dependent ATPase

10/100 helicase

5/39 DNA helicase

54/468 hydrolase, acting on acid anhydrides, in phosphorus-containing anhydrides

20/134 catalytic, acting on DNA

16/121 microtubule binding

3/10 misfolded protein binding

12/113 structural constituent of ribosome
